

## In-Depth Interview Guide | Post-2020 Family Planning

### **Key Questions**

The below questions can be used to help guide conversations but are not exhaustive. Questions should be adapted as the conversation develops.

#### ***Introduction***

- **Individual Role:** Could you provide some background on your experience and your connection to the family planning community?
- **Organizational Role:** What is your organization's role in the family planning ecosystem? How and with what other stakeholders and organizations in the ecosystem does your organization interact?

#### ***FP2020 History***

- **History:** Given your knowledge of FP2020, what lessons should we take with as we move forward?

#### ***Post-2020***

- **Vision:** What is your ideal future state for family planning in 2030? How far are we from it today? What should the family planning community do to achieve this future state?
- **Needs:** What else must the family planning community have in place at the global, country, and local levels to be successful in the next decade? (capabilities, resources, partnerships, governance, etc.) How would you prioritize these?
- **Emerging Trends:** What new or emerging trends do you think will impact family planning between now and 2030? Which trends have the greatest potential for positive impact? What about negative impact?
- **Stakeholders:** What stakeholders are essential to engage to support family planning post-2020? Of these stakeholders, who has been traditionally engaged, and who has not?
- **Specific Focus Areas and Partnerships:** Are there specific and / or new focus areas or partnerships you think need to be considered to build upon the momentum in the field and enable impact post-2020?

#### ***Closing***

- **Anything Else:** Is there anything else that we did not cover that we should be aware of or that you would want us to consider?
