

## Welcome

### Survey to Inform the Development of a Collective Vision for Family Planning Post-2020

In 2012, global leaders launched an ambitious partnership to ensure more women and girls in the world's lowest income countries could use modern contraception to help realize their right to determine if, when, and how often they have children. At that time, the vision was to enable an additional 120 million girls and women to have access and use modern contraception by 2020. The 2017 Family Planning Summit was organized around six major themes: Adolescents and Youth; Humanitarian Settings; Contraceptive Method Choice; Supply Chain Strengthening; Financing Solutions; and Private Sector Networks.

Now, the time has come to take stock of what we've learned and re-imagine how to accelerate progress for the next decade. We've made impressive strides to date, and it is critical that we not lose momentum or a keen focus on the millions of women and girls who want to access a wide range of contraceptives.

This survey is part of the process to build a collective post-2020 family planning vision that considers key global and regional trends and provides recommendations for future partnerships and focus areas. We seek your input to develop this vision. All information will be confidential and de-identified prior to use. Information will be aggregated to assess the responses across all survey participants and then used to guide the development of a vision for family planning after 2020.

We commit to sharing the key findings of this work with the global community.

## Survey

### Background Section

**Background:** This section is intended to identify the type of work you, or your organization, does, so that information can be stratified appropriately during analysis.

1. What type of organization do you most represent? Please select only one.
  - a. Academic
  - b. Donor government
  - c. Foundation
  - d. Faith-based civil society
  - e. Women's rights or advocacy organization
  - f. Youth-led organization
  - g. Other civil society
  - h. Government
  - i. UN or international organization
  - j. Service delivery/implementing partner
  - k. Private sector
  - l. Other (please describe):
  
2. How many years have you worked in the family planning community?
  - a. Less than a year
  - b. 1-2

- c. 3-10
  - d. 11-20
  - e. 20+
  - f. N/A (I primarily work in another sector)
3. In which thematic areas does your organization work? Please select all that apply.
- a. Child protection and/or Child marriage
  - b. Commodities manufacturing
  - c. Education
  - d. Population, health, and environment
  - e. Family planning
  - f. Food security and Nutrition
  - g. Gender based violence
  - h. Health systems strengthening
  - i. Technology and digital solutions
  - j. Logistics and supply chain
  - k. Maternal, Newborn, Child health
  - l. Mental health and psychosocial support
  - m. Research and Development
  - n. Sexual and reproductive health and rights
  - o. Shelter
  - p. Water, sanitation, and hygiene
  - q. Youth and adolescent sexual health
  - r. Other (please describe)
  - s. N/A
4. What regions does your organization work in? Please select all that apply
- a. Africa
  - b. Asia
  - c. Middle East
  - d. Latin America and the Caribbean
  - e. Europe
  - f. North America
  - g. N/A
5. At what level(s) does your organization focus its work? Please select all that apply
- a. Global
  - b. Regional
  - c. National
  - d. Community
  - e. N/A

### **Vision Section**

**Vision:** This section is intended to identify your vision of what family planning should look like after 2020. The information you provide will be coded and analyzed to identify key themes to determine the different aspirational visions from the global community.

6. In your own words, what is your vision for family planning in 2030? (400-character limit)
  
7. Which of the following themes best summarize the vision you described above?
  - a. Family planning as a pathway to achieving gender equality
  - b. Sustainable access to family planning commodities and services
  - c. Normalization of family planning culturally and politically
  - d. Quality of family planning services and commodities
  - e. Financial sustainability for family planning service delivery (domestic, private, and other)
  - f. Equitable access to a broad range of family planning options, including for traditionally under-served populations
  - g. Family planning saves lives
  - h. Family planning as integral to human capital development
  - i. Achieving demographic dividend
  - j. Improving health outcomes for women and girls
  - k. Sustainable development
  - l. Family planning's impact on population dynamics
  - m. Family planning as related to environmental sustainability
  - n. Other (please describe):

### **Focus Areas and Partnerships Section**

**Focus Areas and Partnerships:** This section is intended to identify which focus areas and partnerships have the greatest potential for positive impact in family planning so that the vision you described for post-2020 can be achieved.

8. In your own words, what focus areas have helped advance family planning in your community, country, organization, or professional work over the past decade? (400-character limit).
  
9. Investing in which focus areas is most essential to achieve the vision you described above? Please select the top 3.
  - a. Galvanize commitment at national and global levels (political and/or financial)
  - b. Develop, implement, and monitor supportive government policies
  - c. Increase allocation and efficient use of domestic, public financing
  - d. Integration of family planning into Primary Health Care/Universal Health Coverage frameworks
  - e. Increase existing donor allocations for family planning
  - f. Engage the private sector for increased family planning service delivery
  - g. Advocacy for country-level family planning policy changes
  - h. Optimize family planning-related data tracking, collection and use
  - i. Support for accountability mechanisms
  - j. Develop new contraceptive technologies
  - k. Strengthen family planning supply chains for consistent and ample supply of commodities

- l. Expand contraceptive method choice
  - m. Focus on marginalized populations, including humanitarian settings
  - n. Focus on keeping girls in school
  - o. Expand innovative delivery mechanisms, including use of digital technologies
  - p. Increase use of mass media for social and behavior change
  - q. Youth-friendly services institutionalized and scaled
  - r. Other (please describe):
10. In your own words, what partnerships have helped advance family planning in your community, country, organization, or professional work over the past decade and how? (400-character limit).
11. In your opinion, global partnerships between which types of institutions will be important to reaching your vision for family planning? Please select their level of importance (High, medium, low, n/a)
- a. Country and sub-national governments
  - b. Commodity manufacturers (public or private)
  - c. Pharmaceutical retailers and local pharmacies
  - d. Other private sector entities
  - e. Country-based civil society organizations
  - f. International civil society organizations and champions
  - g. Faith-based organizations
  - h. Youth-led or youth-focused organizations
  - i. Women's rights and advocacy organizations
  - j. Regional/global alliances (e.g. FP2020, Ouagadougou, Reproductive Health Supplies Coalition, PMNCH, etc.)
  - k. Cross-sectoral programs (e.g. Finance, Agriculture, Education, etc.)
  - l. Other health programs (e.g. HIV, RMNCH, WASH)
  - m. UN organizations
  - n. Global financing mechanisms (e.g. GFF, GFATM, etc.)
  - o. Academic institutions
  - p. Donors governments
  - q. Foundations
12. If there are organizations not listed in the above question that you believe will be important to partner with globally to reach your vision, please list them below and indicate the level of importance as high, medium, low or n/a (400-character limit).

### **External Factors and Tactics Section**

**External Factors and Tactics:** This section is intended to identify which external factors have the greatest potential for impact on family planning in the next decade. It is also intended to identify the corresponding tactics to capitalize on or mitigate these factors so that your vision for post-2020 can be achieved.

13. Please select the level of impact (positive or negative) you believe each factor below will have on family planning over the next decade? (High, medium, low, n/a)

- a. Political instability and conflict, humanitarian crises
- b. Strength of the global economy/economic opportunity
- c. Increase in nationalist / populist politics
- d. Population dynamics (migration, growing youth cohort and/or ageing)
- e. Urbanization
- f. Climate change
- g. Changing national policies
- h. Domestic resource mobilization
- i. Innovative financing mechanisms
- j. Use of emerging technologies (virtual medicine, portable devices, etc.)
- k. Data and analytics
- l. Social media
- m. Private or employer-sponsored insurance
- n. International donors
- o. Health service integration

14. If there are factors not listed in the above question that you believe have high potential to impact family planning over the next decade, please list them below and indicate whether you believe their impact will be positive or negative (400-character limit).
15. In your own words, what tactics have helped advance family planning in your community, country, organization, or professional work over the past decade? (400-character limit).
16. In your own words, what is the biggest opportunity for improving family planning uptake in the next decade? (400-character limit).
17. What successful tactics from the FP2020 global partnership should be carried forward after 2020? Please select all that apply.
- a. Establishing country commitments
  - b. Engagement with countries to implement their commitments
  - c. Establishing other types of commitments
  - d. Data collection and measurement
  - e. Accountability mechanisms
  - f. Support for effective advocacy
  - g. Focus on rights and empowerment
  - h. Implementing evidence-informed programming for adolescents
  - i. Youth engagement at all levels
  - j. Focus on family planning in humanitarian situations
  - k. Maintaining a coordinated group of high-level leadership for family planning (e.g. Reference Group)
  - l. Focus on emerging themes for family planning (e.g. Postpartum/Post-abortion family planning (PPFP/PAFP))
  - m. Emphasis on high-impact practices
  - n. Maintaining existing partnerships
  - o. Establishing new partnerships
  - p. Coordinated global leadership

q. Other (please describe):

17a. (If option n is selected) Please describe which partnerships should be maintained moving forward. Please be as specific as possible. (400-character limit)

17b. (If option o is selected) Please describe what new partnerships should be established. Please be as specific as possible (400-character limit)

18. Do you have any additional input, comments, or feedback that you would like to share for consideration as we build a collective vision for family planning post-2020? (400-character limit).
