# Demographic Data Visualizations

We Consulted ~1,000 Stakeholders Around the Globe
Stakeholders across regions responded to the online survey and participated in the working sessions

Berlin Working Session
Countdown 2030 Europe

Kathmandu Working Session
Reproductive Health Supplies Coalition 19th Membership Meeting

London Working Sessions
UNFPA Supplies Steering Committee; UK SRHR Network

Washington, DC Working Session
Deloitte hosted working session

Cotonou Working Session
Better Contraceptive Access for Adolescents and Youth (AFP/PAI)

Kigali Working Sessions
Africa Health Agenda International Conference; Youth focus group

Countries from which survey participants responded

# We Consulted ~1,000 Stakeholders with Diverse Experience & Expertise

Survey respondents represent different types of organizations and many years of collective experience in family planning

Respondents' Organization Types

UN or International Organization

Other Civil Society

Donor Government

Other

Improving health outcomes	Improving health outcomes for women and girls
Normalization	Normalization of family planning culturally and politically
Population dynamics	Family planning's impact on population dynamics
Quality of family planning	Quality of family planning services and commodities
Saves lives	Family planning saves lives
Sustainable access	Sustainable access to family planning commodities and services
Sustainable development	Sustainable development

Focus Area Data Visualizations

The Global Family Planning Community Uses Common Key Words to Describe the Focus Areas Needed to Achieve Their Vision

The Global Family Planning Community Highlighted Key Focus Areas Needed to Achieve Their Vision

Integrate family planning into PHC/UHC and galvanize political and financial commitments were highlighted by the greatest proportion of stakeholders*

% of Total Respondents (n=885)** vs **Focus Areas Highlighted**

Focus Area	%
Integrate into PHC/UHC	41%
Galvanize commitments	29%
Increase domestic financing	20%
Foster supportive policies	19%
Increase use of mass media	18%
Advocate for policy change	18%
Strengthen supply chains	18%
Engage the private sector	17%
Scale youth-friendly services	16%
Expand method choice	14%
Focus on the marginalized	12%
Optimize data use	10%
Keep girls in school	10%
Support accountability	8%
Expand innovative delivery	6%
Develop contraceptive tech	6%
Other	5%

*Stakeholders could highlight up to three focus areas to invest in to achieve their visions
** N= Survey participants, interview participants, and distinct comments from the working sessions on focus areas

Focus Areas Defined

Focus Area	Detail
Galvanize commitments	Galvanize commitment at national and global levels (political and/or financial)
Foster supportive policies	Develop, implement, and monitor supportive government policies
