In August 2016, the United Nations Population Fund (UNFPA) shared the following update on achieving its Family Planning 2020 commitment during the 2015-2016 time period (commitment included for reference below).

FINANCIAL UPDATES

- In 2015, UNFPA reports having spent US\$341 million or 42.7% of its resources on family planning (compared with 40.7% in 2014).
- Reflecting the crosscutting nature of family planning vis-à-vis the different areas of work covered by UNFPA's mandate, this estimate includes all expenses that contribute to family planning-related results.
- UNFPA reports that US\$92.2 million of these expenses were funded through core contributions, and US\$248.8 million were funded through noncore contributions.
- Within the latter, US\$155 million (or 45% of UNFPA's overall family planning expense) was funded through UNFPA Supplies. UNFPA notes this highlights the importance of UNFPA Supplies as a key mechanism in meeting the FP2020 goal and the impact that a funding shortage to the Programme could have on the achievement of that goal.

The following text is the commitment made by UNFPA at the 2012 London Summit on Family Planning. To review the commitment online, please visit: <http://www.familyplanning2020.org/unfpa>.

UNFPA works to deliver a world where every pregnancy is wanted, every childbirth is safe and every young person's potential is fulfilled.

FINANCIAL COMMITMENTS

UNFPA will double the proportion of its resources focused on family planning from 25 percent to 40 percent based on current funding levels, bringing new funding of at least US \$174 million per year from core and non-core funds. This will include a minimum of US \$54 million per year, from 2013-2019, in increased funding for family planning from UNFPA's core resources.
