

FAMILY PLANNING 2020: Reference Group Meeting

July 9-10, 2018
Seattle, Washington
USA

AGENDA

OVERVIEW

On the one-year anniversary of the 2017 FP Summit, the Reference Group will convene in Seattle, WA for a two-day meeting to assess the latest data on FP2020 progress as well as the early impact of commitments made and revitalized in London. Specifically, the Reference Group will discuss challenges and consider evidence-based solutions oriented toward addressing four meeting objectives. By the end of the meeting, the Reference Group will reach consensus on core issues and outline a course of action for itself, the Secretariat, and partners to enact immediate measures, resolve problems, and accelerate progress.

HIGH-LEVEL OUTCOME: FAMILY PLANNING REMAINS AT THE TOP OF THE GLOBAL AGENDA AS A BEST-BUY FOR DEVELOPMENT.

Goal 1: RG members use preliminary data for 2018, including additional users, country progress, changes in method mix, and improvements in quality, to drive toward a clear understanding of opportunities for collaboration and investment to accelerate progress over the next 2-3 years.

Goal 2: RG members and FP2020 countries optimize universal health coverage (UHC) policies, programs, and objectives to advance family planning goals and ensure the information and contraceptive needs of women and girls are met through high-quality, voluntary, rights-based family planning programs.

Goal 3: RG members and FP2020 countries advocate for family planning, and better align to funding approaches that include a push for domestic resource mobilization, transition, and sustainability.

Goal 4: RG members are well-positioned to drive messaging and align the community to advance FP2020 priorities around upcoming global moments, maintaining momentum from the 2017 Family Planning Summit and for the Global Goods.
