### Projected Trends in mCPR and Unmet Need for Modern Methods

![Projected Trends in mCPR and Unmet Need for Modern Methods](chart)

### In 2018, we estimate

**32,360,000** women are using a modern method of contraception in Indonesia

As a result of modern contraceptive use:

- **12,140,000** unintended pregnancies prevented (#6)
- **2,865,000** maternal deaths averted (#8)
- **16,000** unsafe abortions averted (#7)

### Contraceptive Method Mix (#9)
