## COMMITMENT PROGRESS SUMMARY NARRATIVE

Based on our commitment to FP2020 to increase the use of modern family planning methods from 54% in 2015, it increased to 72% in 2016 and 84% in 2017. With this remarkable turnout, we have prevented unplanned pregnancies to up to 99% of the total number of member-workers who have no plans of having kids in 2016 and 2017. Also, with the goal to reach 90% of pregnant and lactating mothers with post-partum family planning counselling sessions, we have reached 92%.
